PLANT MAKES PROTOTYPES OF WATTMETERS

TO BEGIN SERIAL PRODUCTION THIS YEAR -- Ljubljana Slovenski Porocevalec,
17 Jul 50

The "Iskra" Factory in Kranj recently constructed the prototypes of a wattmeter, a three-phase wattmeter, an indicator with a moving coil, and a combination volt and wattmeter. The machinery for the production of the above items has been completed, and serial production will begin this year. The test construction of a three-phase electric-current calculator and a motion-picture projector for narrow film, with amplifier, was successful.

In cooperation with the Institute for Electrical Communications in Ljubljana, the factory will produce loud-speakers capable of maximum amplification.

CABLE FACTORY TO OPERATE BY END OF 1950 -- Ljubljana Slovenski Porocevalec,
12 Aug 50

The cable factory in Svetozarevo, which is being built by the "Trudbenik" Enterprise, will be in operation by the end of 1950.

The first four shops of the factory will be completed and production will begin this year. Shops No 2 and 3 have been completed, while shops No 4 and 8 are being roofed. Seven bridge cranes have been installed in the four shops thus far.

A large machine for winding electric insulators has been installed in shop No 3. The main shop will be completed in 1951.

Thus far one-third of the entire factory has been completed.

TO CONSTRUCT STORAGE BATTERY FACTORY -- Ljubljana Slovenski Porocevalec,
5 Aug 50

A large storage battery factory will be constructed in the near future in the vicinity of the lime pit in Skradin near Sibenik. The plans for the factory have been almost completed. A new aqueduct from the Krka Falls to Skradin will be built for the factory in Skradin at a future date.
